

## 2006

1. **Abelson, A.**  
Artificial reefs vs. coral transplantation as restoration tools for mitigating coral reef deterioration: Benefits, concerns, and proposed guidelines. [Bull. Mar. Sci.]; 2006; 78(151-159).
2. **Barneah, O., Benayahu, Y. & V.M. Weis.**  
Comparative proteomics of symbiotic and aposymbiotic juvenile soft corals. [Mar. Biotech.]; 2006; 8(11-16).
3. **Belmaker, J., Ben-Moshe, N., Ziv, Y & N. Shashar.**  
Determinants of the steep species-area relationship of coral reef fishes. [Coral Reefs]; 2006; 26(103-112).
4. **Ben-Tzvi, O., Einbinder, S. & E. Brokovich.**  
A beneficial association between a polychaete worm and a scleractinian coral? [Coral Reefs]; 2006; 25(98).
5. **Ben-Yosef, D.Z., Kashman, Y. & Y. Benayahu.**  
Response of the soft coral *Heteroxenia fuscescens* to ultraviolet radiation regimes as reflected by mycosporine-like amino-acid biosynthesis. [Mar. Ecol.]; 2006; 27(219-228).
6. **Brickner, I., Oren, U., Frank, U. & Y. Loya.**  
Energy integration between the solitary polyps of the clonal coral *Lobophyllia corymbosa*. [J. Exp. Biol.]; 2006; 209(1690-1695).
7. **Brokovich, E., Baranes, A. & M. Goren.**  
Habitat structure determines coral reef fish assemblages at the northern tip of the Red Sea. [Ecol. Indic.]; 2006; 6(494-507).
8. **Chase, Z., Paytan, A., Johnson, K.S., Street, J. & Y. Chen.**  
Input and cycling of iron in the Gulf of Aqaba, Red Sea. [Glob. Biogeochem. Cycles]; 2006; 20; GB3017.
9. **Chen, Y., Street, J. & A. Paytan.**  
Comparison between pure-water- and seawater-soluble nutrient concentrations of aerosols from the Gulf of Aqaba. [Mar. Chem.]; 2006; 101(141-152).
10. **Darmaillacq, A-S., Chichery, R., Shashar, N. & L. Dickel.**  
Early familiarization overrides innate prey preference in newly hatched *Sepia officinalis* cuttlefish. [Anim. Behav.]; 2006; 71(511-514).
11. **Einbinder, S., Perelberg, A., Ben-Shaprut, O., Foucart, M.H. & N. Shashar**  
Effects of artificial reefs on fish grazing in their vicinity: Evidence from algae presentation experiments. [Mar. Environ. Res.]; 2006; 61(110-119).
12. **Fishelson, L.**  
Cytomorphological alterations of the thymus, spleen, head-kidney and liver in cardinal fish (Apogonidae, Teleostei) as bioindicators of stress. [J. Morphol.]; 2006; 267(57-69).
13. **Fishelson, L.**  
Evolution in action-peacock-feather like supraocular tentacles of the lionfish, *Pterois volitans* - the distribution of a new signal. [Environ. Biol. Fishes]; 2006; 75(343-348).

14. **Fine, M., Roff, G., Ainsworth, T.D. & O. Hoegh-Guldberg.**  
Phototrophic microendoliths bloom during coral "white syndrome". [Coral Reefs]; 2006; 25(577-581).
15. **Fuchs, Y., Douek, J., Rinkevich, B. & R. Ben-Shlomo.**  
Gene diversity and mode of reproduction in brooded larvae of the coral *Heteroxenia fuscescens*. [J. Heredity]; 2006; 97(493-498).
16. **Glassom, D. & N.E. Chadwick.**  
Recruitment, growth and mortality of juvenile corals at Eilat, northern Red Sea. [Mar. Ecol. Prog. Ser.]; 2006; 318(111-122).
17. **Hadas, E., Marie, D., Shpigel, M. & M. Ilan.**  
Virus predation by sponges is a new nutrient-flow pathway in coral reef food webs. [Limnol. Oceanogr.]; 2006; 51(1549-1550).
18. **Hase, C., Al-Qutob, M., Dubinsky, Z., Ibrahim, E.A., Lazar, B., Stambler, N. & M.M. Tilzer.**  
A system in balance? Implications of deep vertical mixing for the nitrogen budget in the northern Red Sea, including the Gulf of Aqaba (Eilat). [Biogeosciences Discuss.]; 2006; 3(383-408).
19. **Holzman, R., Shashar, N., Howland, H.C. & G. Katzir.**  
Changes in the refractive state during prey capture under low light in the nocturnal cardinalfish *Apogon annularis*. [Vision Res.]; 2006; 46(2094-2101).
20. **Jones, V., Shashar, N., Ben Shaprut, O., Lavigne, K., Rienks, R., Bults, R., Konstantas, D., Vierhout, P., Peuscher, J., van Halteren, A., Herzog, R. & I. Widya.**  
Remote monitoring for healthcare and for safety in extreme environments; [In: M-Health: Emerging Mobile Health Systems; Eds. Istepanian R.H., Laxminarayan, S. & C.S. Pattichis; Springer Science; 624pp; ISBN: 0-387-26558-9]; 2006.
21. **Karako-Lambert, S., Hershkovits, G. & N. Stambler.**  
Differential gene expression in Symbiodinium microadriaticum clade B following stress. [Mar. Biotech.]; 2006; 8(268-274).
22. **Karplus, I., Katzenstein, R. & M. Goren.**  
Predator recognition and social facilitation of predator avoidance in coral reef fish *Dascyllus marginatus* juveniles. [Mar. Ecol. Prog. Ser.]; 2006; 319(215-223).
23. **Kelman, D., Kashman, Y., Rosenberg, E., Kushmaro, A. & Y. Loya.**  
Antimicrobial activity of Red Sea corals. [Mar. Biol.]; 2006; 149(357-363).
24. **Kent, R., Holzman, R. & A. Genin.**  
Preliminary evidence on group-size dependent feeding success in the damselfish *Dascyllus marginatus*. [Mar. Ecol. Prog. Ser.]; 2006; 323(299-303).
25. **Kiflawi, M.**  
On optimal propagule size and developmental time. [Oikos]; 2006; 113(168-173).
26. **Kiflawi, M., Belmaker, J., Brokovich, E., Einbinder, S. & R. Holzman**  
The determinants of species-richness of a relatively young coral-reef ichthyofauna. [J. Biogeogr.]; 2006; 33(1289-1294).
27. **Kiflawi, M. & A.I. Mazeroll.**  
Female leadership during migration and the potential for sex-specific benefits of mass spawning in the brown surgeonfish (*Acanthurus nigrofuscus*). [Environ. Biol. Fish.]; 2006; 76(19-23).

28. **Kramarsky-Winter, E., Harel, M., Siboni, N., Ben Dov., E., Brickner, I., Loya, Y. & A. Kushmaro.**  
Identification of a protest-coral association and its possible ecological role. [Mar. Ecol. Prog. Ser.]; 2006; 317(67-73).
29. **Lampert, Y., Kelman, D., Dubinsky, Z., Nitzan, Y. & R.T. Hill.**  
Diversity of culturable bacteria in the mucus of the Red Sea coral *Fungia scutaria*. [FEMS Microbiol. Ecol.]; 2006; 58(99-108).
30. **Lapid, E.D. & N.E. Chadwick.**  
Long-term effects of competition on coral growth and sweeper tentacle development. [Mar. Ecol. Prog. Ser.]; 2006; 313(115-123).
31. **Levy, O., Achituv, Y., Yacobi, Y.Z., Dubinsky, Z. & N. Stambler**  
Diel 'tuning' of coral metabolism: physiological responses to light cues. [J. Exp. Biol.]; 2006; 209(273-283).
32. **Levy, O., Achituv, Y., Yacobi, Y.Z., Stambler, N. & Z. Dubinsky.**  
The impact of spectral composition and light periodicity on the activity of two antioxidant enzymes (SOD and CAT) in the coral *Favia favaus*. [J. Exp. Mar. Biol. Ecol.]; 2006; 328(35-46).
33. **Levy, O., Dubinsky, Z., Achituv, Y. & J. Erez.**  
Diurnal polyp expansion behavior in stony corals may enhance carbon availability for symbionts photosynthesis. [J. Exp. Mar. Biol. Ecol.]; 2006; 333(1-11).
34. **Litchfield, C.D., Oren, A., Irby, A., Sikaroodi, M. & P. Gullivet.**  
Temporal and salinity impacts on the microbial diversity at the Eilat, Israel, solar salt plant. [In: Proceedings of the First International Conference on the Ecological Importance of Solar Saltworks; Kekkass, T.D. & N.A. Korovessis (Eds.); CEISSA-2006, Santorini, Greece]. pp. 72-81.
35. **Malm, T.**  
Reproduction and recruitment of the seagrass *Halophila stipulacea*. [Aquatic Botany]; 2006; 85(345-349)
36. **Monismith, S.G., Genin, A., Reidenbach M.A., Yahel, G. & J.R. Koseff.**  
Thermally driven exchanges between a coral reef and the adjoining ocean. [J. Phys. Oceanogr.]; 2006; 36(1332-1347).
37. **Muhling, M., Fuller, N.J., Somerfield, P.J., Post. A.F., Wilson, W.H., Scanlan, D.J., Joint, I. & N.H. Mann.**  
High resolution genetic diversity studies of marine *Synechococcus* using *rpoC1*-based Restriction Fragment Length Polymorphism. [Aquat. Microb. Ecol.]; 2006; 45(263-275).
38. **Oren, A., Pri-El, N., Shapiro, O. & N. Siboni.**  
Buoyancy studies in natural communities of square gas-vacuolate archaea in saltern crystallizer ponds. [Saline Systems]; 2006; 2:4
39. **Oren, A.**  
There is life in saline environments. Microorganisms at high salt concentrations: the biology of the Eilat salt ponds. [Chimia]; 2006; 81(39-40).
40. **Pasternak, Z., Blasius, B., Abelson, A. & Y. Achituv**  
Host-finding behaviour and navigation capabilities of symbiotic zooxanthellae. [Coral Reefs]; 25(201-207).

41. **Paytan, A., Shellenbarger, G.G., Street, J.H., Conneea, M.E., Davis, K., Young, M.B. & W.S. Moore.**  
Submarine groundwater discharge: An important source of new inorganic nitrogen to coral reef ecosystems. [Limnol Oceanogr.]; 2006; 51(343-348).
42. **Penno, S., Lindell, D. & A.F. Post.**  
Diversity of *Synechococcus* and *Prochlorococcus* populations determined from DNA sequences of the N-regulatory gene *ntcA*. [Environ. Micro.]; 2006;
43. **Perkol-Finkel, S., Shashar, N. & Y. Benayahu.**  
Can artificial reefs mimic natural reef communities? The roles of structural features and age. [Mar. Environ. Res.]; 2006; 61(121-135).
44. **Perkol-Finkel, S., Zilman, G., Sella, I., Miloh, T. & Y. Benayahu**  
Floating and fixed artificial habitats: effects of substratum motion on benthic communities in a coral reef environment. [Mar. Ecol. Prog. Ser.]; 2006; 317(9-20).
45. **Raz-Bahat, M., Erez, J. & B. Rinkevich.**  
*In vitro* light microscopy documentation for primary calcification processes in the hermatypic coral *Stylophora pistillata*. [Cell Tissue Res.]; 2006; 325(361-368).
46. **Reidenbach, M.A., Koseff, J.R., Monismith, S.G., Steinbuck, J.V. & A. Genin**  
The effects of waves and morphology on mass transfer within branched reef corals. [Limnol. Oceanogr.]; 2006; 51(1134-1141).
47. **Reidenbach, M.A., Monismith, S.G., Koseff, J.R., Yahel, G. & A. Genin.**  
Boundary layer turbulence and flow structure over a fringing coral reef. [Limnol. Oceanogr.]; 2006; 51(1936-1968).
48. **Sabbah, S. & N. Shashar.**  
Experimental and theoretical study of skylight polarization transmitted through Snell's window of a flat water surface. [J. Opt. Soc. Am. A.]; 2006; 22(1978-1988).
49. **Sabbah, S. & N. Shashar.**  
Polarization contrast of zooplankton: A model for polarization-based sighting distance. [Vision Research]; 2006; 46(444-456).
50. **Sabbah, S. & N. Shashar.**  
Underwater light polarization and radiance fluctuations induced by surface waters. [Applied Optics]; 2006; 45(4726-4739).
51. **Shafir, S., Van Rijn, J. & B. Rinkevich.**  
Coral nubbins as a source material for coral biological research: a prospectus. [Aquaculture]; 2006; 259(444-448).
52. **Shafir, S., Van Rijn, K. & B. Rinkevich.**  
Steps in the construction of underwater coral nursery, an essential component in reef restoration acts. [Mar. Biol.]; 2006; 149(679-687).
53. **Shaish, L., Abelson, A. & B. Rinkevich.**  
Branch to colony trajectory in a modular organism: Pattern formation in the Indo-Pacific coral *Stylophora pistillata* [Dev. Dynam.]; 2006; 235(2111-2121).
54. **Shellenbarger, G.G., Monismith, S.G., Genin, A. & A. Paytan.**  
The importance of submarine groundwater discharge to the nearshore nutrient supply in the Gulf of Aqaba (Israel). [Limnol. Oceanogr.]; 2006; 51(1876-1886).

55. **Shenkar, N., Fine, M., Kramarsky-Winter, E. & Y. Loya.**  
Population dynamics of zooxanthellae during a bacterial bleaching event. [Coral Reefs]; 2006; 25(223-227).
56. **Shenkar, N. & F. Monniot.**  
A new species of the genus *Botryllus* (Ascidiacea) from the Red Sea. [Zootaxa]; 2006; 1256(11-19).
57. **Stambler, N.**  
Light and picophytoplankton in the Gulf of Eilat (Aqaba). [J. Geophys. Res.] 2006; 111(C11009).
