

**Summary of Information Regarding the Absorption of New Resident Students
for the Academic Year 2025-2026**

Dear Researchers,

1. **The process of absorbing new resident students:**

- 1) A researcher from an Institute of Higher Education in Israel who is interested in their student carrying out research at the Institute with the status of a *resident student* should fill out and submit [an application form](#).
- 2) A notice of acceptance will be given by the Institute's Secretariat who will also contact the students for coordination and assessments for admission to the Institute.
- 3) **Prerequisites for students with permanent resident status at the Institute:**
 1. Approval of studies for the academic year 2025-2026 - official approval from the Student Accounts Unit or the Student Registry at the university where the student is enrolled in a master's or doctoral program in the academic year 2025-2026 *.
 2. Conducting active and ongoing research in the field of the sea in one of the Institute's laboratories in Eilat.
 3. Permanent residence in Eilat or in one of the localities in the Eilat area.
 4. Activity in the Institute of at least 75% of the weekly working time (= 30 hours per week).
 5. Participation in 70% of the Institute's seminars.
 6. Publication of the name of the Institute on each article and academic work as a second affiliation (in addition to the parent university).
 7. The name of the Institute must be cited in any publication in the general press or in any communication to the media related to the student's work.

*As much as you have, otherwise documents must be completed by the beginning of the academic year.

For the avoidance of doubt: Responsibility for managing the research work and the student's well-being lies with the researcher and not with the Institute.

2. **Teaching positions for new resident students:**

1. Students who will be in their first year at the Institute will be able to apply for teaching positions. A call will be sent via email by the Teaching Coordinator, Dr. Bracha Farstey.
2. Please note, applications for Teaching Assistant positions to be received by 15.7.25.
3. The decision regarding acceptance of the position is subject to the Teaching Committee.
Note: Students can apply for Teaching Assistant positions before receiving an answer about their admission at the Institute.

3. **Scholarships for new resident students**

- 1) Responsibility for the support of graduate students and their well-being lies with the supervisors and the parent university.
- 2) However, this year the Institute will offer a limited number of scholarships to students with active "Institute resident" status:
 - **For continuing M.Sc. students:** 70% living expenses stipend for students in their second year at the Institute and who have received a scholarship from the Institute - please fill out [the form](#) by 1.9.25.
 - **For new M.Sc. students:** the Institute will be able to offer a limited number of scholarships in a competitive process. Please note, an application can be submitted before confirmation of receiving resident status - please fill out [the form](#) by 1.9.25
 - **For PhD students:** no living expenses stipend will be offered.
